NT KENO XTRA

ADD XTRA TO YOUR STANDARD GAME

NT Keno XTRA is an optional feature available on eligible Standard Games (1 Spot to 5 Spot).

To add XTRA, simply select XTRA when entering your game.

The cost of XTRA is equal to your Standard Game wager.

Example:

\$1 Game + XTRA = \$2 Total Cost

\$2 Game + XTRA = \$4 Total Cost

\$5 Game + XTRA = \$10 Total Cost

HOW XTRA WORKS

If your Standard Game wins a prize and XTRA has been selected, the XTRA multiplier may increase the Standard Game prize.

Possible XTRA multipliers are:

1X · 2X · 3X · 4X · 5X · 10X

Example:

4 Spot Game

\$1 Wager

XTRA Selected

Standard Prize = \$118

If the XTRA multiplier for that game is 5X:

$\$118 \times 5 = \590

IMPORTANT

- XTRA multipliers are weighted, meaning some multipliers occur more frequently than others. Higher multipliers, including 10X, occur less frequently
- Available on eligible Standard Games only (1 Spot to 5 Spot)
- XTRA is optional
- The XTRA wager must be equal to the Standard Game wager
- XTRA doubles the total cost of the entry
- XTRA does not apply to Jackpot prizes
- XTRA does not apply to Overs, Unders & Evens
- XTRA multipliers are 1X, 2X, 3X, 4X, 5X and 10X
- A 1X multiplier means the Standard Game prize remains unchanged

MYSTERY BET

LEAVE IT ALL TO CHANCE

Mystery Bet is a completely system-generated NT Keno entry.

Simply choose the amount you would like to spend and let the NT Keno system do the rest.

HOW TO PLAY

STEP 1 ► Choose the amount you would like to spend, how many chances and how many games.

STEP 2 ► The NT Keno system automatically determines:

- Your Spot Game.
- Your Numbers.

STEP 3 ► Your Mystery Bet ticket is generated automatically.

EVERY TICKET IS DIFFERENT

Each Mystery Bet entry is randomly generated by the NT Keno system.

Because each entry is unique, no two Mystery Bet tickets are necessarily the same.

CHANCES

Mystery Bet entries can be purchased with multiple Chances.

Each Chance creates a randomly generated entry, with multiple Chances on a single Mystery Bet entry.

WHAT'S THE DIFFERENCE?

Way Bets and Setbets.

Way Bet allows a player to create multiple combinations (not chances) on a single ticket with their own numbers.

Set Bet allows a player to play multiple combinations on a single entry, within pre-defined entries.

EZYPlay

You choose the Spot and the NT Keno system chooses the numbers.

Mystery Bet

The NT Keno system determines the Spot Game, numbers and games based on the amount you spend.

WHY CHOOSE MYSTERY BET?

- Quick and easy to play
- Completely system generated
- Every ticket is different
- Multiple Chances available on a single entry

R18 Please gamble responsibly.

SETBETS

READY-MADE COMBINATIONS

Setbets (previously known as Superplays) provide multiple combinations on multiple Spot and Jackpots all on a single ticket.

Simply select a Setbet option and let the NT Keno system generate the combinations for you.

Setbets are ideal for players who want multiple entries from a single ticket without creating their own combinations.

HOW SETBETS WORK

STEP 1 ► Choose a Setbet option.

STEP 2 ► Choose your stake.

STEP 3 ► Choose the number of games.

STEP 4 ► The NT Keno system generates the combinations included in the Setbet.

WHY CHOOSE SETBETS?

- Multiple combinations on a single ticket
- Includes Standard Games and Jackpot Games
- Quick and easy to play
- No need to create your own combinations
- System-generated selections

THINGS TO REMEMBER

- Each generated combination is treated as a separate entry.
- The total ticket cost depends on the Setbet selected and the stake chosen.
- The same selections will be replayed when replaying a ticket.

SETBET OPTIONS

HOW TO READ A SETBET

Setbets contain multiple entries (or “ways”) on a single ticket. Each entry represents a separate chance to win.

Example: Setbet 3

- 3 Spot x3
- 6 Spot x3
- 9 Spot x1

This means the ticket contains:

- Three separate 3 Spot entries
- Three separate 6 Spot entries
- One separate 9 Spot entry

For a total of seven combinations on the one ticket – at \$1 a game, each game would be \$7.

PURCHASING A SETBET

There are currently 25 Setbets available.

To purchase a Setbet, simply tell the operator:

1. The Setbet number (1–25)
2. Your stake per way
3. The number of games
4. Whether you would like XTRA applied (where available)

AVAILABLE SETBETS:

The following table outlines all available Setbets, including:

- Cost per game
- Spot combinations included
- Whether numbers are randomly generated or fixed
- XTRA eligibility

R18 Please gamble responsibly.

SETBET OPTIONS

NOTE:

- All Setbets use randomly generated numbers, with the exception of Setbet 25, which uses a fixed set of numbers designed to display "NT" on the ticket.
- XTRA is only available on selected Setbets as indicated in the table.

WAY BETS

CREATE YOUR OWN COMBINATIONS

Way Bets allow you to create multiple betting combinations from a single selection of numbers.

By placing your selected numbers into groups, the NT Keno system generates a range of different combinations, with each combination treated as a separate entry.

Way Bets provide flexibility and allow you to customise the combinations played on your ticket.

HOW WAY BETS WORK

STEP 1 ► Select your numbers.

STEP 2 ► Place your numbers into groups.

STEP 3 ► Choose the combinations you would like to play. Select All Ways to play every possible combination, or choose individual spot combinations to create your own way to play.

STEP 4 ► The NT Keno system generates the selected combinations.

Each generated combination is treated as an individual wager.

Example:

- GROUP A ► 1, 2, 3
- GROUP B ► 10, 11
- GROUP C ► 20, 21, 22

The NT Keno system uses these grouped numbers to generate the selected combinations.

The more groups and combinations selected, the more entries can be created on the one ticket.

WHY CHOOSE WAY BETS?

- Create your own combinations
- Flexible play options
- Multiple entries on a single ticket
- Customise combinations to suit your preferred style of play

THINGS TO REMEMBER

- Way Bets allow you to create your own combinations.
- The NT Keno system generates multiple Ways from your selected groups.
- Each generated Way is treated as a separate wager.
- The total cost of the ticket depends on the number of Ways generated and the stake selected.

- Overs, Unders & Evens is a separate game from Standard Games and Jackpot Games.

R18 Please gamble responsibly.

POINTS TO REMEMBER

Actual numbers drawn on the game draw selection device shall be the official numbers drawn.

NT Keno winnings are paid out on the printed receipt ticket only and can be claimed through any NT Keno terminal up to 365 days after the bet has been placed.

It is the customer's responsibility to check their ticket. Please check your NT Keno ticket carefully, be sure it is correctly marked. Any corrections must be made before the close of the current game.

NT Keno results are not official until all numbers are drawn and confirmed.

Tickets are the player's responsibility. Exposing the NT Keno ticket receipt to excessive heat may cause discoloration resulting in the entry becoming invalid.

On Spot games the minimum bet is \$1 and maximum bet is \$9,999, Overs or Unders maximum bet is \$500 per ticket. No cent bets are allowed.

NT Keno has a 10,000 game cycle, with the maximum games on one ticket being 1,000.

If there is more than one winner on a Jackpot, the Jackpot will be shared and abated proportionately.

This brochure is only intended to be an abbreviated guide to certain aspects of NT Keno in the Northern Territory. All games of the NT Keno are subject to the 'Approved Rules of Keno', which may be amended from time to time without notification. A copy of the 'Approved Rules of Keno' is available for viewing upon request from any NT Keno venue in the Northern Territory.

MAXIMUM AGGREGATE PAYOUT

The payout limit per NT Keno game is \$200,000 (not including Jackpot pools or prizes won of \$200 or less). Therefore, if the total value of prizes in any one game exceeds \$200,000, the payouts to all major prize winners exceeding \$200 are prorated proportionally to their win.

Pro-rating applies to fixed-odds prizes over \$200 (not including wins of \$200 or less).

Prizes that would be pro-rated below \$200 would be scaled to a minimum of \$200.

Each way of a Combination (Ways) bets are assessed independently.

The non-fixed odds components of Jackpot wins are not subject to pro-rating (but are subject to sharing if a jackpot was won by more than one person on a game).

For instance if there are three major wins on one game of \$200,000, \$140,000 and \$60,000 the payouts will abate to \$100,000, \$70,000 and \$30,000 respectively, resulting in a total payment of \$200,000 for that game, not including prizes less \$200 that were won on that game.

 Please gamble responsibly.
